PRIVATE HEALTH INSURANCE
Tariff NK.select XL

Don't make compromises when it comes to your health.

Best health is our business.

With top-class protection from the NK.select XL, you benefit from our full expertise, based on over 30 years of experience with the multi-award winning NK tariff. Most importantly, though, modern benefits at the highest level and maximal freedom of choice, thereby allowing the very best health protection for singles and families. First-class benefits rethought – and redesigned!

Flexible rates – choose your deductible

With the NK.select XL tariff, you can determine the amount of your premiums yourself thanks to different tariff levels. You choose between an affordable yearly deductible (€ 600, € 1,200 or € 3,000) or the bonus option. By the way: In the NK.select XL tariff, check-up examinations are not deducted from the deductible/bonus or the premium refund that we pay you if no benefits are payable.

NK.select XL Bonus – optimal for employees

You receive a guaranteed monthly bonus of € 100 from us on the NK.select XL Bonus tariff level. Over the course of the year, you will receive € 1,200 for engaging in healthy, cost-conscious actions. When you submit invoices for reimbursement, up to € 1,200 will be offset against the bonus. The bonus option is particularly advantageous if you are an employee, since your employer will subsidize the premium (employer subsidy). The paid bonus benefits only you.

Example calculation (35 years)

(including statutory allowance)

€ 748.83

minus employer
subsidy

- € 374.41

Useful supplements to your health insurance coverage.

Compulsory nursing care insurance (PVN tariff)

As a member of a private health insurance company, you must have compulsory nursing care insurance. The scope of benefits fulfills the statutory requirements for basic nursing care.

Your advantage: The – often more affordable – premium is based not on your income, but on your age when you take out the insurance policy.

Tariffs for daily benefit (KT/FKT tariff)

With daily benefit insurance, you insure your income if you are unable to work, as well as during maternity leave and delivery. As a self-employed individual or freelancer, you can receive daily benefits from the 22nd day. Employees are generally entitled to 6 weeks of continued wage payments. For employees, we recommend daily benefit payments from the 43rd day.

Your advantage: You receive your daily benefit from the agreed day – tax-free, without a time limit, even on Sundays and holidays.

Supplementary nursing care insurance (OLGAflex tariff)

Close the gap to your compulsory statutory nursing care insurance. “OLGAflex” offers the optimal nursing care insurance for anyone thanks to its flexible pricing model: With full protection, right from the start!

Your advantage: The strong package of benefits secures your financial existence.

Premium reduction for seniors (MBZ.flex)

Lower premiums during your senior years with flexible modified premium payments. The principle is simple: You pay a little more today, and your premiums are reduced during your senior years.

Your advantage: The premium reduction is subject to employer subsidies, and tax-free during your senior years.

Protection for trips abroad (URZ. tariff)

The NK.select XL tariff already includes insurance coverage abroad. Nevertheless, the trip abroad protection tariff URZ. is a recommendable addition.

Your advantage: If you become ill abroad, you pay no deductible and receive your available premium refund under comprehensive health insurance.
