

International services

Our App for Hi.Traveller

Do you always have everything you need to know about your stay abroad with you? With our new Globalhealthplan app, you do. The following services are now available to you.

What can the Globalhealthplan app do?

- ✓ Emergency call function with detection of your location
- ✓ Push messages/alerts
- ✓ Video consultation with healthcare professionals and chat consultation directly from the app
- ✓ Search for doctors/service providers
- ✓ Country specific information on medicine and safety in the respective country of stay
- ✓ Forwarding to the possibility of online invoice submission directly from the app
- ✓ Document vault (self-administered)
- ✓ Deposit of personal data

Video guide
The Globalhealthplan app explained in under 3 minutes.

Download app now free of charge

1st step: Download

We recommend downloading the app from the Apple App Store or the Google Play Store right away. Simply scan the appropriate QR code and install the app. Alternatively, you can also search for the "Globalhealthplan" directly in the store and download the app from MD Medicus.

Download for [iOS](#)

Download for [Android](#)

2nd step: Login

After successful installation, please click on "Continue with Code". The Code is the 4-digit number that you receive from your employer.

You can enter the Code for your records here:

Simple invoice submission

[Here](#) invoices can easily be submitted online. You can also access this page directly from the app. Alternatively, you can scan the following QR code with your smartphone:
